These proceedings are a record of the 13th International Conference of the International Society for Scientometrics and Informetrics (ISSI2011).

ISSI is an association of professionals active in the emerging interdisciplinary fields of informetrics, bibliometrics/scientometrics, technometrics and webometrics. The application areas of the field include: scholarly communication, indicators of scientific and technological performance and collaboration, knowledge mapping and visualization, the structure and dynamics of WWW, information systems and information retrieval.

ISSI aims to encourage communication and exchange of professional information in the field of scientometrics and informetrics, to improve standards, theory and practice in all areas of the discipline, to stimulate research, education and training, and to enhance the public perception of the discipline.

ISSI's constitutional structure includes a President, a Secretary-Treasurer, and Board members. ISSI Board meetings have been held in association with the conference every two years since establishment.

Among its members are scientists from over 30 countries representing all five continents.

ISSI presidents:

Hiltrun Kretschmer (Germany)

Michael E.D. Koenig (USA)

Bluma Peritz (Israel)

Cesar Macias-Chapula (Mexico)

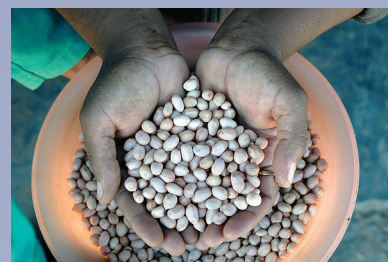

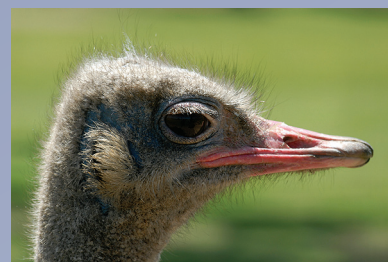

Mari Davis (Australia)

Henry Small (USA)

Ronald Rousseau (Belgium)

Information and how to join the society, categories of membership and associated fees can be found on the ISSI web site:
